CONCRETE PARTNERS

PARTNERING BUILDERS & DEVELOPERS

“our superior skills in project management means that your project will be delivered within timeline & budget”

Concrete Partners is a leading concrete construction company operating all over Queensland and Northern NSW. The company specialises in Commercial Construction and Civil Construction. With superior skills in project management, you can trust that your project can be delivered within the given timeline and budget.

Concrete Partners constantly looks at new technology to be at the cutting edge of the concrete trade. Concrete Partners has put their money where their mouth is, investing in Laser Screed machines. Laser Screed technology can ensure the surfaces are poured with extreme accuracy. This is an investment reflected in our finished work.

Concrete Partners brings along a comprehensive Project Management service. We are developing compliant OHS standards (safety plan, wms, environmental management plans, ppe) and company wide safety culture. Concrete Partners prides itself on understanding the importance of every small detail.

CONCRETE PARTNERS

PARTNERING BUILDERS & DEVELOPERS

“ our combined years of experience & knowledge along with superior communication skills delivers better results for you ”

Our Management Team

David Jones

With more than 25 years in the concrete industry David has a vast array of experience in all facets of concreting. From owning and running his own businesses to helping set up other national businesses into overseas countries, David has dealt with all levels of client management, from Government to local builders. His hands-on management approach leads from the front, demonstrating all the direction needed to complete the projects on time, with quality and accuracy. The combination of David with Tim Webber and Tim Kruger has given Concrete Partners vastly more experience and a committed management skill, with an invested focus.

Tim (Timbo) Kruger

Timbo has more than 15 years experience in the concrete industry with project management skills 'second to none'. His ability to organise and motivate men to produce their best work is his best asset. Combining this with coordination of suppliers and subcontractors, Tim has shown, through his own successful business based on the Gold Coast, that he brings a great wealth of knowledge and skill to Concrete Partners. Partnered with David, Timbo will only strengthen Concrete Partners' ability to organise and complete all types of projects on time and within budget.
